STEP 3

Select if you require either Dam & Sire Confirmation or Single Parent Confirmation (Dam OR Sire). Dam and/or Sire **must have been** DNA profiled by Orivet

Parentage Requests

DAM & SIRE CONFIRMATION SINGLE PARENT CONFIRMATION

STEP 4

Select your animals and submit your request by clicking on the **REQUEST FROM ADMIN** button. Your request will then appear on this page. If verifying more than one offspring then repeat the request for those offspring, each animal needs to have its own request. Animals that have been shared will also appear in this drop down menu. To help make the selection easier we recommend that you complete the sex of each animal. If you have entered the sex as "female" they will only appear in the Dam or Offspring section, if you have entered the sex as "male" they will only appear as a Sire or offspring.

Dam & Sire Confirmation

Please select animal barcodes from dropdown menu. You can only select animals listed in your account and any shared animals.

Please note that all animals' details (offspring, dam, sire) will appear on the Parentage Report as per the information provided in the animal's file. Please update any details for the Dam & Sire eg. registered name, microchip number etc BEFORE submitting a parentage request.
